In ecology, a biological interaction is the effect that a pair of organisms living together in a community have on each other. They can be either of the same species (intraspecific interactions), or of different species (interspecific interactions).

Biological interaction - Wikipedia

The theory of recapitulation, also called the biogenetic law or embryological parallelism, is often expressed using Ernst Haeckel's phrase "ontogeny recapitulates phylogeny" is a historical hypothesis that the development of the embryo of an animal, from fertilization to gestation or hatching, goes through stages resembling or representing ...
