Entertainment is a form of activity that holds the attention and interest of an audience, or gives pleasure and delight. It can be an idea or a task, but is more likely to be one of the activities or events that have developed over thousands of years specifically for the purpose of keeping an audience's attention. Although people's attention is ...

An Edwardian-era duke and duchess are torn apart by the expectations of their families and the death of their child. Seraphina Bevingstoke, Duchess of Haven fully admits that she trapped her husband into marriage. But that was only because she loved him so much and was sure he would never offer for a social mushroom like her. Unfortunately, her ...

Antagonist and agonist muscles often occur in pairs, called antagonistic pairs. As one muscle contracts, the

other relaxes. An example of an antagonistic pair is the biceps and triceps; to contract - the triceps relaxes while the biceps contracts to lift the arm.
