Introducing the Human Brain The human brain is the most complex organ in the body. This three-pound mass of gray and white matter sits at the center of all human activityâ€”you need it to drive a car, to enjoy a meal, to breathe, to create an artistic masterpiece, and to enjoy everyday activities.

Drugs and the Brain | National Institute on Drug Abuse (NIDA)

Date rape drugs are any type of drug or alcohol used to make rape or sexual assault easier. Drugs or alcohol can make a person confused about what is happening, less able to defend themselves against unwanted sexual contact, or unable to remember what happened.

Date rape drugs | Womenshealth.gov

The action of drugs on the human body is called pharmacodynamics, and what the body does with the drug is called pharmacokinetics. The drugs that enter the human tend to stimulate certain receptors, ion channels, act on enzymes or transporter proteins.

Drug action - Wikipedia

66% of the human body is water. Humans sneeze at the rate of about 100 miles per hour, and a cough at about 60 miles per hour. Cells related to _____ divide remarkably faster than other cells in the body. The living part of the hair is the very bottom part surrounding the papilla, called the
