Financial economics is the branch of economics characterized by a "concentration on monetary activities", in

which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy.

Financial economics - Wikipedia

Can your organization contribute at our Operational Risk Management Congress? Please contact the Center for Financial Professionals today to discuss how we can deliver your thought-leadership at the event, help you generate leads, and provide you with unique networking and branding opportunities.

Operational Risk Management | Risk Management Conference

Cost accounting is the process of recording, classifying, analyzing, summarizing, and allocating costs associated with a process, and then developing various courses of action to control the costs.

Cost accounting - Wikipedia

Judge William H. Pauley III denies petitioner Bank of New York Mellon's request to remand this matter to state court. The judge ruled that the settlement proposed in state court is not immune from federal court review.
