Scenario-based strategizing has been proposed as the tool of choice in cases with high degrees of uncertainty in the environment and/or about the strategic options (Courtney et al., 1997, Van der Heijden, 2005).

Scenario-based strategizing: Advancing the applicability

The incremental learning derives its name from the incremental nature of the learning process. In incremental learning, all facets of knowledge receive a regular treatment, and there is a regular inflow of new knowledge that builds upon the past knowledge.

SuperMemo: Incremental learning (SuperMemo 16)

Some assessments and interventions may be needed during your labour and birth. Talk to your health care provider during your pregnancy to make sure that you understand why these assessments and/or interventions may be done.

Stress urinary incontinence (SUI) is a common problem in the field of Female Urology. This guideline evaluates both the index patient, defined as an otherwise healthy female considering surgical therapy for the correction of SUI, as well as the non-index patient, which includes those with high-grade prolapse as well as geriatric patients.

Stress Urinary Incontinence Guideline - American

This section introduces a range of climate-smart agriculture (CSA) practices and technologies within seven

entry points for CSA; soil management, crop management, water management, livestock management, forestry, fisheries and aquaculture, and energy management.
