the mammals of the pdf

Mammals (/ m ɛˈm ɛˈm i ɛ / from Latin mamma "breast") are vertebrate animals constituting the class Mammalia, and characterized by the presence of mammary glands which in females produce milk for feeding (nursing) their young, a neocortex (a region of the brain), fur or hair, and three middle ear bones.

Mammal - Wikipedia

The Division of Mammals is a premier research collection, ranking among the three largest worldwide and largest university based mammal collection.

Welcome to the Division of Mammals :: Museum of

Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.
