The report calls for employers to recognise the business case for increasing the use of flexible working which can be a win-win for both the organisation and the individual.

Commuting and Flexible Working | Reports | CIPD

Abstract. The singular focus of public debate on the "top 1 percent" of households overlooks the component of earnings inequality that is arguably most consequential for the "other 99 percent" of citizens: the dramatic growth in the wage premium associated with higher education and cognitive ability.

Skills, education, and the rise of earnings inequality
